REMARKS

Applicant's attorney wishes to express his appreciation for the courtesy of an interview conducted with Examiner Katcheves on June 16, 2005.

Applicant has amended claims 1 and 12 to clarify that the first and second center-to-groove spacing are not equal. Strausheim does not disclose such a structure.

Applicant has amended claims 14 and 15 to clarify the invention.

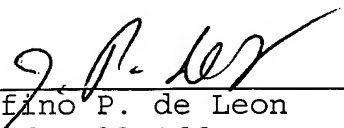

Applicant has amended Fig. 3 to add reference numeral 34 recited in the specification on page 5, line 9.

Applicant has amended the specification for minor informality.

In view of the above, since none of the references, either singly or in combination, teach or suggest applicant's claimed invention, it is asserted that claims 1-15 are patentable over the cited reference and are asserted to be in condition for allowance. Reconsideration of rejection is respectfully requested and an early and favorable action is earnestly solicited.

It is believed that no fee is due; however, should that be incorrect, please charge Deposit Account No. 19-2105 and inform the undersigned.

Respectfully submitted,

Josefino P. de Leon
